Welcome Christie Witt

About Membership

Contact us

Eclipse Foundation provides our community with intellectual property, mentorship, marketing, event, and IT services.

Why Become a Member of the Eclipse Foundation?

Participate

- in a thriving developer community, and provide contributions to Eclipse projects and Working Groups.
- Protect your strategic investments by signaling your support for advancing the technologies you care about.
- Take an active role in supporting sustainable, commercializable open source technologies that benefit all.

Benefits and Services

- Share costs and innovation while focusing resources on rapidly building differentiated features that customers value most.
- Benefit from strong governance, solid IP management, and inclusive open source community development.
- Prosper by sharing open source commercialization best practices with industry peers.
- Promote accomplishments and demonstrate good corporate citizenship through contributions to open source projects.

Key Services of the Eclipse Foundation Members can take advantage of the following key services.

Development Process

- We focus on enabling the use of open source in commercial software products and services. Eclipse projects are known for their high-quality, streamlined development approach.
- Our staff assists new projects in implementing the Eclipse Development Process, a set of procedures and rules that form our best practices.

IP Management

- The Eclipse Foundation provides vendor-neutral, reliable and scalable services for Eclipse technology developers and users.
- IT infrastructure services delivered to the Eclipse community include source code repositories, build infrastructure, development-oriented mailing lists and newsgroups, a download site, and website.

Marketing

- The Eclipse Foundation's strategic marketing programs promote Eclipse community engagement, drive awareness and discoverability of Eclipse technologies, and increase the commercial adoption of Eclipse technologies.
- We organize a number of activities, including cooperative marketing events with member companies, conferences, local events, and quarterly and annual members meetings.

Ecosystem Development and Marketing

- The Eclipse Foundation provides unbiased, unbiased, unbiased and valuable content for Eclipse users and developers.
- Our work promotes the adoption and use of Eclipse technologies. We provide extensive information on Eclipse technologies, including a comprehensive list of projects, members, community events, and conferences.

Note: The following membership sections will be stacked content blocks, just like this example.
